

Yeah - so this has gone off the rails and backwards almost immediately.

Whoever is sending the RCMP to my home - please stop. I understand this is frightening for you - it is not for me. Karen, Rosanne and I have known my death from the 3 terminal conditions they beat into me as a child would end my life, as it is ending now, since 1992. The fact that the injuries they inflicted between 2017-19 are speeding it up is largely irrelevant to my death. I am dying now, when and why doctors said I would, since I was 19.

- This has all been explained many times over - all the way back to 2017 when I first wrote my siblings. Please read the repo. It answers every question I have received relating to my life and death.

Whoever is sending the RCMP to my home - please stop. The repo has an entire folder labeled SIRT - Serious Incident Response Team - those documents outline the abhorrent treatment I have received at the hands of the RCMP in Liverpool. As well as my wishes to never speak to the Liverpool RCMP again.

Whoever is sending the RCMP to my home - please stop. I tried reporting my rape, mutilation and murder in 2019 when Rosanne released me. I encountered every cliché there is for a rape victim.

- All those clichés have been repeated in the days after notifying my family (Feb 13th).

Whoever is sending the RCMP to my home - please stop. The repo has an entire folder labeled Randy - those documents outline how and why I testified against a man that threatened 2 mass shootings in Liverpool in 2021, the torture of his wife and how and why I testified against the people that covered it up. That man has been assaulting, harassing and threatening me (and my guests), with and without weapons, in my home since Sept 2020. Those people have been assaulting, harassing and threatening me since I testified against them (July 2021).

- My repo and its contents explain, many times, the brain damage from childhood that allows me to live and work in these conditions. It is not easy and I am tired of being assaulted when I have done, literally nothing, as it is my personality and a quarter century of training and experience.
- Every time someone sends the RCMP to my home - these men see. Every time the RCMP leave within minutes, doing and saying nothing to the men that threatened mass shootings and tried to kill me in August, convinces them that I have tried to report them again. So these men come at me harder and harder each time.
 - I've been assaulted relentlessly since the RCMP came to visit on Feb 13th. I am being assaulted, threatened and harassed. My utilities are being sabotaged - my tools and possessions thrown into the garbage.
 - It's only gotten worse since the RCMP visited again yesterday. My water and hot water have been shut off 5 times in 3 days, 4 of them since the RCMP visit.

None of this is sudden to me - I've had 30 years of doctors and counseling. The best counseling I ever received was the 25 years I interviewed victims of violent predators. It put my life in context.

- My concern is for you, my family. If anyone needs to talk to people it will be my siblings who visited, saw and did not understand what was happening. Suzanne, John Paul, Katherine, Danielle, Dustin, Sarah and several others - you all have key pieces of information - you just aren't aware of the relevance or context.
 - There is a file for each of you in the repo - explaining what I saw you witness - it's up to you to fill in the parts I do not know.

None of it is a surprise to me. I've been preparing for this for 30 years. Living my life - no wife, no children, no home, no property, no retirement - no one to have to watch my end. It was my intention to simply die overseas - family would get a death notification from overseas - I'd never have to explain anything. No one would have to know. Karen, Rosanne and Wilhelmina could get away with everything from my childhood - if I was left alone - I simply didn't care.

Rosanne held me from April 2017 to Aug 2017 - releasing me only out of the fear I would die in her house. I disappeared overseas for medical treatments.

Rosanne held me from Feb 2018 to April 2019 - releasing me out of the fear Dustin would come home and see and learn what happened to Larry and the housekeepers only weeks earlier - that would be the proverbial Pandora's box - if Izzy, Judy or Patsy went to Dustin because of what happened in the last week of March 2018.. Rosanne hadn't feared I would die in her house since she tried to pull a knife on Larry and I the day after Suzanne flew back to Europe (July 2018)

- Rosanne screamed at me nightly from July 2018 to Sept 2018 - "Just fucking kill yourself so I can tell everyone Larry drove you to it." - that's how much pain and torture Karen and Wilhelmina were raining down on Rosanne - she no longer feared me dying in her house - she just wanted me dead and wouldn't let me leave.
- Rosanne screamed at me nightly from the moment Dustin left in October 2018 to April 2019 - "Just fucking kill yourself so my life can go back to normal."
- Rosanne only let me go because Dustin was coming back and she'd been caught assaulting Larry and the housekeepers only weeks earlier. It's all in the repo.

Rosanne held me until the last possible second and let me go hoping I would disappear overseas immediately (like I did in 2017) and die without explaining anything (which I put in writing in 2017).

I didn't - I stayed and lived off Wilhelmina's inheritance - not out of spite - but out of concern. I was willing, and put in writing, directly and indirectly, in 2017 - that I would die and say nothing - if Rosanne and Karen left me alone.

- They didn't. They committed so much violence, everything that was done to me, beating and trying to kill Larry; beating Dennis and threatening everyone except Cody and Tammy - that it isn't safe for my family for me to say nothing.

I've stayed until my statements and records are protected under a Dying Declaration. Dustin and Sarah were enough protection for Larry - as long as I said nothing. Now that's all changing.

I am not worried about me - my death - or anything else related to me. I am worried about them. Rosanne will try again. Danielle has many little things to testify to - 2 of them include me warning her and Madi not to visit in Dec 2018 - because Rosanne was too violent - and Danielle receiving a message from Karen - that Rosanne 'Has gone off the deep end' in April 2019.

I get that everyone is upset and confused - but hounding me to do what I've been doing for 30 years isn't helping. Not recognizing that you, more than me, need to speak to counselors isn't helping.

The one person closest to me has been in grief counseling, for my impending death, for months.

Please read the repo - ask specific questions about what I've said - or what you know / suspect / think and I haven't included.

Please don't tell me it didn't happen. Please don't tell me it can't happen to a man. Please don't feed any more cliches.

I will answer simple questions about access to documents and a few other topics.

Why can't I read some files ?

You can read everything - either online or offline. Offline is easier. I've already uploaded instructions for that.

Some files are PDF's - they can't (easily) be changed - these are documents that I have submitted to multiple people in a formal sense. I keep them as PDFs to indicate that I don't go back and edit them.

Some files are txt - text files - these are much shorter files. I re-read and edit for clarity as I go.

Some files are video - I try to stick with MP4.

Some files are audio - I try to stick with MP3 although there are M4A files for courtroom testimony.

Some files are jpg or jpeg - these are images. A few PNG pics slip through - I fix that when I find them.

What are the numbers on the files ?

Those are dates - year month day - this file is 2022 02 18.
It keeps things in chronological order.

What are the 000 files ?

Those are files I want permanently at the top of a directory - I want you to see it first - everything after that is either chronological or alphabetical.

Where are you going ? Who are these people ?

I'm going off-grid as a precautionary measure due to the storm. I'll be back when that weather allows.

These are 2 families - we've helped each other during COVID. We raise animals together. We hunt, fish and trap together.

Who was your son ? Why didn't you tell us ?

I've never told anyone, anything about my life. My son passed in 2004 after I flew to Korea - I didn't know about him. I didn't learn about him until 2007. His mother didn't tell me at the time (2004) because of her personal circumstances - that I understand and agree with.

Karen and Rosanne only learned of my son and his death in 2012 when they were interfering in my life out of the fear I was returning to Canada for a woman (not the mother of my son). Danielle met this woman in 2009. I told her (the woman) more than I am telling you because back then I wasn't limited by the Dying Declaration time frame or requirements. She is the strongest and most extraordinary person I've ever met. We knew each other in college. She contacted me in 2009 to father children for her. I agreed - if she would ask me again after hearing about my life. She listened to what I had to say for 6 months. She lived with me in Nova Scotia and again in South Korea. Like everyone else - she didn't believe the simplicity of my statements until she had to see me do what I do for work a handful of times. That's when she made the same decision John Paul and Katherine have - she doesn't want the violence in my life anywhere near herself or her (future) children. So she left.

Wilhelmina has screamed at me since my childhood - she wished my siblings and I were never born. Karen has never spoken against her - against that. That was true in 1980 - that was true 40 years later.

Wilhelmina has screamed at me since 2015 - she wished Cody and Dustin were never born. Rosanne has never spoken against her - against that.

These women gave me to child rapists - sexually mutilated me worse than a penetrative gang rape - worse than David Reimer, the only reason they learned of my son - was because I was protecting a woman from my private life.

There are a handful of friends in Korea and BC that I told in 2008.

There have been a handful of friends that I've talked to about my son, since.

I've never mentioned him to my siblings - because you'll ask his name. I will not utter that while Karen and Rosanne are still alive. I have told them both - they never get to say his name. I won't risk it by telling anyone.

I won't even identify which province or reserve he and his mother are from. He is first nations, like his mother, and with Wilhelmina's, Karen's and Rosanne's attitude towards the first nations around home - I refused to give them that slur as I refused to give them his name.

If you've read the repo - you know Rosanne screamed at me in her kitchen 280 times, Karen in her kitchen 60 times. Every single time, I asked to be let go. I warned them if I died in Rosanne's house the autopsy would send them to prison. Every single time - I asked them to let me go so I could see my son's grave before I died.

They both screamed the same response - "You're getting what you deserve. You don't deserve to see your son. You don't deserve to see that woman (his mother). I'm (Rosanne) doing the world a favor making sure you never have children again. I'm doing that woman a favor making sure you never see her again.

So, no, I don't talk about my son.

Contacting our father :

Walter and Lois came to do a wellness check on me in 1991 under the guise of seeing me graduate from highschool. They were horrified and upset. They bought me clothes to replace the rotting rags I wore. They gave me money to go see our father after my summer program at St. Annes. I did. I stayed with Danielle.

Walter and Lois came to do a wellness check on me again in 1997 under the guise of seeing me graduate.

Karen and Rosanne have used this to abuse my siblings for their entire lives - telling them "Jeff's the favorite because he's the first son." - It was designed and honed to cause Suzanne, John Paul and Danielle as much pain as possible.

Karen and Rosanne did the same thing with Wilhelmina - telling my siblings for their entire childhoods - that I went to Wilhelmina's or the cabin and not them - because I was her favorite.

Suzanne and I crossed paths in 2015 when she was visiting Erlin. Suzanne made a similar comment - that her visit was overshadowed by my presence because I was Wilhelmina's favorite - that I had always been Wilhelmina's favorite.

Yeah - nope.

I reconnected with our father in 1991 - because I thought I was free of Beach Meadows.

I went to see our father after my diagnosis (1992) - and the news I would likely only live another 10 to 20 years. I wanted to know my father without the taint of my medical history - so I never told anyone. I saw him every year I could just as I saw Walter and Lois every year I could.

Our father suspected something - he tried to testify to my health and wellness in 1992/93 - when Suzanne and John Paul were in court and I wasn't. He suspected more when I used his family doctor to access the medical community in Saskatchewan. He never pried, I never explained.

Our father and May cut ties with me in 2010. I was at Paul's at the time working on a Saudi work visa. They lived in Toronto and I had to fly there for paperwork. They didn't want to see me then. I don't know what our father's health is like. I've always assumed May forced the cutting of ties out of concern for his health.

Did the Grandparents know :

Everything about Erlin and Wilhelmina are in the repo - most of it in the folder Before 2017.

Everything about Walter and Lois are in the repo - most of it in the folder Before 2017.

I never got into specifics of the violence of my employment with either grandfather but they both understood I did something with a great deal of it - they both gave me the same advice. Don't talk about what others won't understand.

Walter helped me with my earliest DNR's and the use of the term No Heroic Measures. He never asked why.

Health and Medical Info :

It's in the folder (repo) Living Will.

Childhood Injuries - What :

It's in the repo in a folder Before.2017
