

I have been swamped with RCMP, lawyers and related issues for over a month - most of it stemming from my testifying (July 22nd 2021) in regards to the threats of two mass shootings in Liverpool last year in an unrelated matter that escalated to a direct attempt on my life in from Aug - Nov 2021. This is what I use to do for a living and I am furious with the RCMP for forcing my involvement when all I wanted was to crawl into a hole and die without ever explaining anything.

From Feb 13th to Feb 16th 2022

I have been contacted by only 2 family members - who asked the same question - Please call ?.

I do not know if the others don't know, don't care, have or have not read, don't believe or whatever else.

Today I am left to simply guess what you want to know.

I want this simple thing understood - I wrote, it is in the repo in writing, in 2017 - asking to never speak to, see or set foot in the house of Karen, Rosanne or Wilhelmina.

I wrote my siblings for a month (March - April 2017) - asking for help - telling them not to speak to or explain things to Karen, Rosanne or Wilhelmina.

I asked for my childhood home from Dennis, I asked for help with medication and when my siblings said they couldn't - I asked them to speak to Dennis.

I warned them over and over - talk directly to Dennis. Don't involve or explain anything to Karen or Rosanne.

I told them over and over - the messages are in the repo - I will add to them as I sift my records - I told them over and over - if the house isn't available, if Dennis can't help, just tell me - I have to go to Ontario in a couple months (in 2017) - I can just go early - I'll just call Uncle Paul to ask for help.

Rosanne's lies brought me to Nova Scotia - She lied to Danielle and everyone else - manipulating my siblings into telling me I'd never have to see, speak to or set foot in a house with those women. Rosanne lied to and manipulated Danielle - to tell me the house was mine - the money was mine - that Dennis had said yes and helped me.

Dennis was never told - and as Rosanne screamed at me for 18 months that I owed her - I can only assume the money came from her.

Rosanne was waiting for me in the parking lot on April 22nd 2017. Pacing like an animal. Anger and hate rolling off her - because I had written for a month telling my siblings not to trust her. Not to talk to her. Not to let her handle anything.

Lies, frauds, manipulations and thousands of dollars - lured me to Nova Scotia - when I said for a month I'd go to Ontario if my childhood home wasn't available. Rosanne didn't even get to speak - I spoke first - telling her "I don't care what you want - I'm not doing it." as I walked away from her.

Rosanne's first actions - were to draw blood - as she dug her claws into my arm the way her mother use to.

Rosanne's first words were threats of rape and murder if I spoke to Dennis - if I told him I'd been promised the house. If I told him - I been told he lent me money.

And I said no again - I don't care what you want - I'm not doing it. As I walked away a second time.

Rosanne's second action - was to draw blood - digging her claws into my chest the way her mother use to.

Rosanne's second words were threats of torture and suicide - if I spoke to Dennis - if I told him anything.

And I said no - I don't care what you want - I'm not doing it - as I walked away from her.

A third time - Rosanne digging her claws into my shoulder - hissing Dennis would be beaten and tortured if I spoke to him.

I walked away a 4th time - shaking her loose, telling her I don't care what you want - I'm not doing it.

The rest of my initial kidnapping is in the repo.

You can read about Rosanne screaming threats at me for 3 days.

You can read about her beating Larry 5 times on April 24th 2017.

You can read about her beating Dennis.

You can read about her threatening to kill Larry if I left or told anyone.

Remember one thing - I asked, in writing, to never see them. I said no, blood drawn, death threats made, rape threats made, torture and suicide - I said no.
