

This is the email I sent to my siblings with a copy sent to one of my childhood rapists (Rosanne) as a warning to stay away from me

It was sent by Facebook April 15th 2017

... hold off telling family until you 4 are over the initial shock

This will be blunt.

I have left mother out initially out of concern for her health.

Feel free to fill her in slowly.

I have received medical treatment for a very serious issue for a little over a quarter century. The cost is \$5000 to \$8000 per year and is not available in Canada. It is why I left and I check every time I am home.

I have gone without treatment for 2 years because of the situations I have been dealing with professionally.

This is why my physical health was so poor when I was home with Grandpa, why I broke several bones (bone and muscle loss) in 2016 and why I am currently in the Philippines being treated for malnutrition and exhaustion.

My Taiwanese employers brought me to Taiwan illegally and tried extorting me while I was there. I filed a complaint and they cancelled my health care in retaliation. I filed a complaint with the government and was ordered to drop it or be deported. My health actually drove me to leave so I could access my travel insurance. Taiwan has refused to pay me nearly \$10,000 in salary and expenses.

I will fly to Korea on the 18th and to Canada on the 21st (arriving in Halifax in the wee hours of the 22nd).

I would like to borrow the money to purchase a year of medication in Korea (\$5000) although I would only need half that immediately as I have some money with me. I am likely to need help throughout the summer. I realize this is likely to come from 1 or 2 people. I never want to know who. I would like this to be 'a family' thing.

And that is the easy part.

The hard part (to imagine) is how I got here and what I am doing about it.

I am unlikely to ever discuss the specifics of my medical history. The short version is that I was misdiagnosed and mistreated (treated for the wrong thing) as a young adult (after leaving Liverpool).

The medical intervention used was banned in Canada at that time which is why there is no treatment in Canada now while there is abroad, in some countries.

The most upsetting thing for the family is also why I have never explained it, there are no survivors of this in North America. The suicide rate is 100% with only a handful of documented cases in the last half century. The last person (like me) took their life before I left Canada. I have spent all my time, energy and money avoiding that particular outcome. I have outlived everyone by more than a decade because of how I live my life. My 'normal' life occurs in a level of physical and emotional pain and violence that I am unlikely to ever discuss. It is why I never discuss my life or my work with anyone.

This is why [REDACTED] left. I told her more than I am telling you.

The Canadian and American medical communities are useless. They have no way of 'fixing' the issues so their only answer is to sedate me into not caring. I have never allowed that – there is a long explanation for why and I will tell you sometime. All of my coping mechanisms are behavioral. It is why I am the way I am.

And all of that has lead to the aspects of my employment I have never discussed with family ... the other reason Lisa left.

I have been employed in the supervision and training of adults since 1992. My responsibilities include the intervention and investigation of physical and sexual predators in education.

Or more simply, for a quarter of a century I have investigated and confronted pedofiles and child abusers in a dozen countries around the world because it has been my job to do so.

It cost me [REDACTED], which is why I stopped. I left that line of work in 2013.

And because I have refused to accept that kind of work – a pedofile ring I testified against, but refused to handle as I normally would as part of my employment in Vietnam in 2014 killed a student.

It happened again in 2015 when I was illegally detained in China for 2 months to discredit my testimony against several child abusers ... who sent the addresses of all my students to an active pedofile in an effort to force me to flee China.

and it happened again in Saudi in 2016 ... I reported a series of physical and sexual abuses and predators but refused to follow up as I normally would because it was not my job ... the result was the hospitalization of several British women for physical assaults, the sexual assault of others and the physical assault of a pregnant woman.

Taiwan was the last straw – I am never going to escape this – so I am coming home to tell the media about my employment and these situations.

Which brings me to the most difficult part – going public will be career ending – that, more than anything else is why I retrained as a welder last year. If Taiwan had worked out, I would not be in this financial shithole and would only have to warn you about the employment issues.

While I am asking family for help with my personal issues – I also have to ask that family have NOTHING to do with the media circus I am going to set up. I will be home to answer some questions and better explain what is going on. It is very important that no-one engage in the social media circus I am setting loose. Don't come to my defense, don't try to explain the hows or whys of what I am doing.

Whatever help that can be arranged, please give it to Danielle.

I will be flying to Korea on the 18th and arrive in Halifax on the 22nd.

I will need to fly to Toronto on the 26th for job interviews, Ottawa on the 29th to speak with the government for the 1st wk of May and then home on May 6th.

I would be home until work starts ... which might be June or August, I do not know.

It is my intention to get work in Canada for a year (hence the meds) but I would have to leave again after that.

I'll coordinate logistics with Danielle.

This was the follow-up after several quick exchanges with siblings who could not access that much money that fast on such short notice.

4/15/17, 11:06 AM

Sorry - time differences.

I have no way to contact Bub to ask - he's not much of a FB presence anyway. So can someone explain to Bub at dinner tomorrow.

I won't be staying at mother's (ever again likely) and especially not now as my health is even poorer than the last time I was home.

I would like to stay at the old house with daily biking to Rosanne's for internet access. I'm also likely to spend days at a time alone / camping.

Don't lie to anyone - it will be in the news long before I get home.

I get in on Saturday morning Danielle and will just sleep at the airport.

Pick a time that is convenient for you if you want to come get me there.

Danielle

You do not have to sleep in an airport. We'll pick you up. Just give me a time or a flight number.

I'll talk to Rosanne and one or both of us will talk to Bub about the money & the house.

The next few exchanges, before and after April 15th, are me repeatedly telling Danielle (and my siblings) not to discuss this with Rosanne. Not to discuss it with Karen. To only speak to Dennis - Directly to Dennis. To ask him directly for the old house and the money.

And no - I did not directly, in writing, name Rosanne, Karen and Wilhelmina as my childhood rapists and murderers, responsible for giving me to child rapists (1980 - 1985) - or the physical and sexual assaults, mutilations and tortures that inflicted 3 terminal medical issues more severe than David Reimer (1985 - 1991). Nor did I mention that those 3 women had threatened to give Suzanne and John Paul to child rapists until 1994. I did put in writing that I never wanted to discuss my childhood. That I wanted to die without ever explaining them.

I will add to these exchanges as I comb through my communications history.

3/26/17, 2:29 AM

keep them - I'll be home in a few weeks and will want to live at the **old house** so they'll be handy.

Heya Katherine, no worries - I just get it from Bub as I have no idea when I will be able to pay this back.

I assumed all along that is where it would come from ... just thought you guys would appreciate some kind of heads up before I contact the media.

Danielle

I have a friend in Lunenburg with an Air BnB suite that we could use for a couple day, but after that we'd need a plan.

Rosanne, what would Bub say if he wanted to stay at the **old house**?

(Jeff mentioned that at one point. Don't know if he's changed his mind)

Danielle

I can come in after work. Can you get to Bayers Lake? Maybe chapters?

Or Halifax Shopping Centre. I can get there too without too much traffic.

Would like to stay at the **old house** so as not to overshadow JP & @Katherine's visit
