

Yeah - so this has gone off the rails and backwards almost immediately. None of this is sudden to me - I've had 30 years of doctors and counseling. None of it is a surprise to me. I've been preparing for this for 30 years. Living my life - no wife, no children, no home, no property, no retirement - no one to have to watch my end. It was my intention to simply die overseas - family would get a death notification from overseas - I'd never have to explain anything. No one would have to know. Karen, Rosanne and Wilhelmina could get away with everything from my childhood - I simply didn't care.

Karen and Rosanne have similarly been waiting for this to happen - so they can be free of the shadow. Rosanne held, tortured and murdered me until I almost died in 2017 - unable to access health care in Canada so I left, for overseas, immediately. She let me go because she thought I was going to die in her house.

She did it again - held, tortured, raped, murdered me to the last possible second and let me go hoping I would disappear overseas and die. I didn't - I stayed and lived off Wilhelmina's inheritance - not out of spite - but out of concern. I was willing, and put in writing, indirectly, in 2017 - that I would die and say nothing - if Rosanne and Karen left me alone.

They didn't. They committed so much violence, beating and trying to kill Larry; beating Dennis and threatening everyone except Cody and Tammy - that it isn't safe for my family for me to say nothing.

I've stayed until my statements and records are protected under a Dying Declaration. Dustin and Sarah were enough protection for Larry - as long as I said nothing. Now that's all changing.

I am not worried about me - my death - or anything else related to me. I am worried about them. Rosanne will try again. Danielle has many little things to testify to - 2 of them include me warning her and Madi not to visit in Dec 2018 - because Rosanne was too violent - and Danielle receiving a message from Karen - that Rosanne 'Has gone off the deep end' in April 2019.

I get that everyone is upset and confused - but hounding me to do what I've been doing for 30 years isn't helping.

Please read the repo - ask specific questions about what I've said - or what you know / suspect / think and I haven't included.

I will answer simple questions in this document.

Why can't I read some files ?

You can read everything - either online or offline. Offline is easier. I've already uploaded instructions for that.

Some files are PDF's - they can't (easily) be changed - these are documents that I have submitted to multiple people in a formal sense. I keep them as PDFs to indicate that I don't go back and edit them.

Some files are txt - text files - these are much shorter files. I re-read and edit for clarity as I go.

Some files are video - I try to stick with MP4.

Some files are audio - I try to stick with MP3 although there are M4A files for courtroom testimony.

Some files are jpg or jpeg - these are images. A few PNG pics slip through - I fix that when I find them.

What are the numbers on the files ?

Those are dates - year month day - this file is 2022 02 18.

It keeps things in chronological order.

What are the 000 files ?

Those are files I want permanently at the top of a directory - I want you to see it first - everything after that is either chronological or alphabetical.

Where are you going ? Who are these people ?

I'm going off-grid as a precautionary measure due to the storm. I'll be back when that weather allows.

These are 2 families - we've helped each other during COVID. We raise animals together. We hunt, fish and trap together.

Who was your son ? Why have we never heard about this ?

I've never told anyone, anything about my life. Karen and Rosanne only learned of my son and his death in 2012 when they were interfering in my life out of the fear I was returning to Canada for a woman (not the mother of my son). Danielle met her in 2009. I told her (the woman) more than I am telling you because back then I wasn't limited by the Dying Declaration time frame or requirements. She is the strongest and most extraordinary person I've ever met. We knew each other in college. She contacted me in 2009 to father children for her. I agreed - if she would ask me again after hearing about my life. She listened to what I had to say for 6 months. She lived with me in Nova Scotia and again in South Korea. Like everyone else - she didn't believe the simplicity of my statements until she had to see me do what I do for work a handful of times. That's when she made the same decision John Paul and Katherine have - she doesn't want the violence in my life anywhere near herself or her (future) children. So she left.

Wilhelmina has screamed at me since my childhood - she wished my siblings and I were never born. Karen has never spoken against her - against that. That was true in 1980 - that was true 40 years later.

Wilhelmina has screamed at me since 2015 - she wished Cody and Dustin were never born. Rosanne has never spoken against her - against that.

These women gave me to child rapists - sexually mutilated me worse than a penetrative gang rape - worse than David Reimer, the only reason they learned of my son - was because I was protecting a woman from my private life.

There are a handful of friends in Korea and BC that I told in 2008 - after I found out in 2007 - when I was in BC doing paperwork for the Japan job.

There have been a handful of friends that I've talked to about my son, since.

I've never mentioned him to my siblings - because you'll ask his name. I will not utter that while Karen and Rosanne are still alive. I have told them both - they never get to say his name. I won't risk it by telling anyone.

If you've read the repo - you know Rosanne screamed at me in her kitchen 280 times, Karen in her kitchen 60 times. Every single time, I asked to be let go. I warned them if I died in Rosanne's house the autopsy would send them to prison. Every single time - I asked them to let me go so I could see my son's grave before I died.

They both screamed the same response - "You're getting what you deserve. You don't deserve to see your son. You don't deserve to see that woman (his mother). I'm (Rosanne) doing the world a favor making sure you never have children again. I'm doing that woman a favor making sure you never see her again.

So, no, I don't talk about my son.

Contacting our father :

Walter and Lois came to do a wellness check on me in 1991 under the guise of seeing me graduate from highschool. They were horrified and upset. They bought me clothes to replace the rotting rags I wore. They gave me money to go see our father after my summer program at St. Annes. I did. I stayed with Danielle.

Walter and Lois came to do a wellness check on me again in 1997 under the guise of seeing me graduate.

Karen and Rosanne have used this to torture my siblings - telling them "Jeff's the favorite because he's the first son." - It was designed and honed to cause Suzanne, John Paul and Danielle as much pain as possible.

Karen and Rosanne did the same thing with Wilhelmina - telling my siblings for their entire childhoods - that I got to go to Wilhelmina's or the cabin and not them - because I was her favorite.

Suzanne and I crossed paths in 2015 when she was visiting Erlin. Suzanne made a similar comment - that her visit was overshadowed by my presence because I was Wilhelmina's favorite.

Yeah - nope.

I reconnected with our father in 1991 - because I thought I was free of Beach Meadows.

I went to see our father after my diagnosis - and the news I would likely only live another 10 to 20

years. I wanted to know my father without the taint of my medical history - so I never told anyone. I saw him every year I could just as I saw Walter and Lois every year I could.

Our father suspected something - he tried to testify to my health and wellness in 1992/93 - when Suzanne and John Paul were in court and I wasn't. He suspected more when I used his family doctor to access the medical community in Saskatchewan. He never pried, I never explained.

Dad and May cut ties with me in 2010. I was at Paul's at the time working on a Saudi work visa. They were in Toronto and I had to fly there for paperwork. They didn't want to see me then. I don't know what Dad's health is like. I've always assumed May forced the cutting of ties out of concern for Dad's health.

Did the Grandparents know :

Everything about Erlin and Wilhelmina are in the repo - most of it in the folder Before 2017.

Everything about Walter and Lois are in the repo - most of it in the folder Before 2017.

I never got into specifics of the violence of my employment with either grandfather but they both understood I did something with a great deal of it - they both gave me the same advice. Don't talk about what others won't understand.

Walter helped me with my earliest DNR's and the use of the term No Heroic Measures.

Health and Medical Info :
